November 29, 2022

To the Families of our Patients,

During the past few years, our office has experienced an increase in patient services that are not covered by insurance as part of traditional medical visits. These include increasing requests for school, camp, sports and return to school forms as well as a large volume of phone calls to our staff, advice nurses, and to the doctors who provide after hour coverage. We also have continued to provide convenient Covid and Flu vaccines in our parking lot as well as Covid testing 7 days per week.

Some offices charge individually for these services; however, the doctors have decided to continue charging an annual fee of \$100.00 per child, with a maximum total of \$200.00 per family. The fee renews annually from the original date of payment. This will cover the additional staff required to provide all the services listed above. If this optional fee causes financial burden for your family, please speak to the office manager. As always, our aim is to continue to provide comprehensive and high-quality medical care to your family.

Sincerely and with best wishes,
The Doctors
